Congress did make a down payment on positive chan

### **Rep. Teague meets with the Carlsbad Honor Guard to discuss veteran's issues**

That's why since coming to Congress, Harry pursued and secured a spot on the House Veterans' Affairs Committee, subsequently receiving key assignments to the Health and Economic Opportunity Subcommittees. From that position, Harry will fight for New Mexico veterans by pursuing full and on-time funding for the VA, more resources for the Veterans' Medical Administration, and access solutions for veterans living in rural areas.

Harry will also work to provide increased accountability over VA services for veterans. Already, when New Mexico veterans receiving care at William Beaumont Army Medical Center were put at risk by unsafe medical practices, Harry stepped in to bring light to the occurrence and ask the tough questions. Now, two investigations into what happened are ongoing.

In addition to fighting for veterans in Congress, Harry offers services to New Mexico veterans through his New Mexico district offices. If you are a veteran and are having trouble receiving

care or accessing services, please visit the [Veterans Resource Page](#) on my website or contact the Harry Helpline at 1-888-9-TEAGUE.
